Contents

Volume 27, Number 1, February 1992

1 *R.W. Jamieson and Frederick J. Wrona*: Life history and production of the predatory caddisfly *Rhyacophila vao* Milne in a spring-fed stream

13 *Landis Hare and Peter G.C. Campbell*: Temporal variations of trace metals in aquatic insects

29 *John K. Jackson and Vincent H. Resh*: Variation in genetic structure among populations of the northern caddisfly *Helicopsyche borealis* from three streams in northern California, U.S.A.

43 *Carol A. Couch and Judy L. Meyer*: Development and composition of the epixylic biofilm in a blackwater river

53 *David Dudgeon and Ivan K.K. Chan*: An experimental study of the influence of periphytic algae on invertebrate abundance in a Hong Kong stream

65 *R.H. Peterson and L. van Eeckhaute*: Distribution of Ephemeroptera, Plecoptera, and Trichoptera of three maritime catchments differing in pH

79 *A. Gerhardt*: Effects of subacute doses of iron (Fe) on *Leptophlebia marginata* (Insecta: Ephemeroptera)

85 *Ryszard Kornijów*: Seasonal migration by larvae of an epiphytic chironomid

91 *T.M. Short and J.R. Holomuzki*: Indirect effect of fish on foraging behaviour and leaf processing by the isopod *Lirceus fontinalis*

99 *A.J. Boulton and P.S. Lake*: The ecology of two intermittent streams in Victoria, Australia. II. Comparisons of faunal composition between habitats, rivers and years

123 *A.J. Boulton and P.S. Lake*: The ecology of two intermittent streams in Victoria, Australia. III. Temporal changes in faunal composition

139 *R.S. Wotton*: Feeding by blackfly larvae (Diptera: Simuliidae) forming dense aggregations at lake outlets

Volume 27, Number 2, April 1992

151 *P.E. Schmid*: Community structure of larval Chironomidae (Diptera) in a backwater area of the River Danube

169 *J.S. Richardson*: Food, microhabitat, or both? Macroinvertebrate use of leaf accumulations in a montane stream

177 *M.J. Dole-Olivier and P. Marmonier*: Patch distribution of interstitial communities: prevailing factors

193 *A.D. Rosemond, S.R. Reice, J.W. Elwood and P.J. Mulholland*: The effects of stream acidity on benthic invertebrate communities in the south-eastern United States

211 *Manfred Pöckl*: Effects of temperature, age and body size on moulting and growth in the freshwater amphipods *Gammarus fossarum* and *G. roeseli*

227 *John E. Reuter and Richard P. Axler*: Physiological characteristics of inorganic nitrogen uptake by spatially separate algal communities in a nitrogen-deficient lake

237 *G.A. Lamberti, S.V. Gregory, C.P. Hawkins, R.C. Wildman, L.R. Ashkenas and D.M. Denicola*: Plant–herbivore interactions in streams near Mount St Helens

249 *R.P. Barbiero and E.B. Welch*: Contribution of benthic blue–green algal recruitment to lake populations and phosphorus translocation

261 *Richard S. Feldman and Edward F. Connor*: The relationship between pH and community structure of invertebrates in streams of the Shenandoah National Park, Virginia, U.S.A.

277 *Kaj Sand-Jensen and Tom Vindbœk Madsen*: Patch dynamics of the stream macrophyte, *Callitriche cophocarpa*

283 *Kaj Sand-Jensen, Morten Foldager Pedersen and Søren Laurentius Nielsen*: Photosynthetic use of inorganic carbon among primary and secondary water plants in streams

Opinion

295 *Robert C. Petersen, Jr*: The RCE: a Riparian, Channel, and Environmental Inventory for small streams in the agricultural landscape

Volume 27, Number 3, June 1992

307 *Robert E. Stauffer*: Efficient estimation of temperature distribution, heat storage, thermocline migration and vertical eddy conductivities in stratified lakes

327 *Alastair M. Suren and Michael J. Winterbourn*: The influence of periphyton, detritus and shelter on invertebrate colonization of aquatic bryophytes

341 *Ian C. Campbell, Kim R. James, Barry T. Hart and Anne Devereaux*: Allochthonous coarse particulate organic material in forest and pasture reaches of two south-eastern Australian streams. I. Litter accession

353 *Ian C. Campbell, Kim R. James, Barry T. Hart and Anne Devereaux*: Allochthonous coarse particulate organic material in forest and pasture reaches of two south-eastern Australian streams. II. Litter processing

367 *J.A. Waringer*: The drifting of invertebrates and particulate organic matter in an Austrian mountain brook

379 *Takayuki Hanazato and Takashi Ooi*: Morphological responses of *Daphnia ambigua* to different concentrations of a chemical extract from *Chaoborus flavicans*

387 *Nicholas A. O'Connor*: Quantification of submerged wood in a lowland Australian stream system

397 *S.A. Blenkinsopp and M.A. Lock*: Impact of storm-flow on electron transport system activity in river biofilms

405 *P.M. Sagar and G.J. Glova*: Invertebrate drift in a large, braided New Zealand river

417 *Roland Hall and John P. Smol*: A weighted–averaging regression and calibration model for inferring total phosphorus concentration from diatoms in British Columbia (Canada) lakes

435 *Brian K. Sorrell and Paul I. Boon*: Biogeochemistry of billabong sediments. II. Seasonal variations in methane production
